The Art of Creating a Home

What makes a good home? This is a question we ask ourselves daily in our work with design – and one we continuously seek to answer.

Simply buying objects does not make a house a home. Similarly, stepping into a place where everything is perfect – the 'right' furniture in the 'right' colours and the 'right' combinations – can be inspiring, but often does not feel like home. ferm LIVING has always been driven by the feeling of a home rather than simply the objects that fill it.

Home is much more than a physical place filled with physical objects. It is an emotional anchor in a world of contrasts. A place where life is lived – good and bad. Like a work of art, home is always in motion; a personal canvas that evolves over time. The organic process a home undergoes reflects our human journey through life. Where old meets new, where sorrow meets joy, where calm meets chaos. Some days you feel like closing the curtains and shutting the world out. On others you cast them wide open and invite the world – and the people you love – inside. A home should embrace all facets of life.

Our purpose with every collection is to bring to life interior objects and furniture that inspire you to create a home where life can be lived. While function and aesthetics are undeniably important to us, we work seriously and responsibly with design and are dedicated to creating not only beautiful objects for the home, but also an emotional connection to the spaces we live in.

Mineral Café and Dining Table

The Mineral Dining and Café Tables are ideal for small living and exude understated exclusivity. Made with Bianco Curia marble, the distinct broken-edge details of the tabletops have been made by hand with a chisel, making each table unique. The marble surfaces have been given a delicate treatment that gives them a subtle shine while making them more resistant to everyday use. Completed with discrete feet, the marble tabletops remain the main focal points of the timeless design.

Customisation Concept

The firm LIVING Customisation Concept makes it possible to tailor chosen design pieces after your own particular taste. With our Made to Order products, you can choose between a wide variety of fabrics that we have selected among leading textile and leather suppliers, making it possible for you to customise your furniture with an array of materials and colour combinations.

Here, we introduce our new SS22 textile additions,
Louisiana and Confetti Bouclé.

Louisiana

The Louisiana x ferm LIVING collection is a collaboration in Danish modern design. Inspired by the graphic lines and discreet modernism of Louisiana's iconic architecture, the classic yet bold stripe mirrors the pervasive wooden slats and black window frames distinctive to Louisiana, as does the understated black and sand colourway, while the textured, linen-based fabric intrigues your sense of touch.

The Louisiana fabric is available for the Rico collection and Clean Cushion.

LOUISIANA: MATERIAL: 34%LINEN, 27%VISCOSE, 17%POLYESTER, 12%COTTON, 8%WOOL AND 2%OTHER FIBERS.

CARE: VACUUM FREQUENTLY ON MEDIUM POWER. REMOVE WET STAINS BY CAREFULLY DABBING WITH A LINT-FREE CLOTH OR SPONGE WRUNG IN WARM DETERGENT-FREE WATER. IF THE STAIN REMAINS, WE RECOMMEND A CHEMICAL DRY-CLEANING PRODUCT (E.G. KR2) OR PROFESSIONAL DRY CLEANING

Confetti Bouclé

The Confetti Bouclé upholstery is an intriguing yet timeless fabric which is woven of uneven yarn to attain the rich, loopy texture of the multicoloured surface.

The Confetti Bouclé fabric is available for the Catena and Rico collection.

CONFETTI BOUCLÉ: MATERIAL: 40% COTTON, 22% ACRYLIC, 16% VISCOSE, 11% WOOL, 11% POLYESTER.

CARE: VACUUM FREQUENTLY ON MEDIUM POWER. REMOVE WET STAINS BY CAREFULLY DABBING WITH A LINT-FREE CLOTH OR SPONGE WRUNG IN WARM DETERGENT-FREE WATER. IF THE STAIN REMAINS, WE RECOMMEND A CHEMICAL DRY-CLEANING PRODUCT (E.G. KR2) OR PROFESSIONAL DRY CLEANING

Era Chandelier

The Era Chandelier is an elegant statement lamp inspired by the clear lines and geometric shapes of the 20's Art Deco Movement. With three opal glass globes resting effortlessly on a light, powder-coated iron structure, the chandelier has a feminine and delicate expression, which nods to the distinctive era and represents everything we love about timeless design and simplicity in construction.

Let the Era Chandelier adorn your hallway, stairways, or light up the conversation at the dinner table.

Esca Collection

Studying the unique silhouettes of the Esca collection, you are instantly charmed by the quirky, unusual shapes. The name, “Esca”, comes from the word escalated, and with the three legs, which lift each piece off the surface, the otherwise chunky designs are given a welcomed element of lightness.

The Esca Piece can be used as a decorative centrepiece or for stylishly serving hors d’hœuvre for your guests, while the Esca Pots present the ideal homes for your favourite plants.

Oli Collection

Effortlessly resting in your hand, the versatile Oli glassware is designed for everyday living. Each piece in the collection is made from 100% recycled glass with a characteristic, subtle tone that makes chilled beverages appear even more refreshing. Adding to the tactility, the Oli glassware has distinctive, tiny bubbles created by deliberate pockets of air left between the layers of mouth-blown glass. Each piece in the Oli collection is unique in thickness and colour, owing to the recycled material and the intricate process of blowing the melted glass into shape.

The Kids' Room

A child's bedroom is a haven of creativity
– and, less often, calm – filled with cherished teddies,
blanket dens and boundless fun. It is here that intrepid
girls and boys venture into the far-off lands of their
minds to battle with dragons and swim with merfolk.

Let kids be kids and open the door to new and
unchartered territories within the four walls
of their own room. The possibilities are limited
only by their imaginations.

Ark Kids Chair and High Chair

Simply working with the standard dimensions of solid wooden planks, the Ark collection makes a statement with its honest, unapologetic and readable design aesthetic. Having responsibility in mind from the initial design phase to the flat-packed packaging, the Ark Kids Chair and Ark Kids High Chair are made in 100% FSC™-certified wood and are designed for disassembly to reduce their environmental footprint. Not only decorative design pieces – the chairs will also serve as comfortable seats for your little ones.

Our View on Sustainability

At firm LIVING, we want people to feel confident in the choices they make as they create space to live more sustainably. As a design company, we see it as our responsibility to lead the way – to inspire change and help all of us make responsible choices.

To achieve this, we have set an ambitious Responsibility strategy and defined nine 2030 commitments across Our Planet, Our Society and Our Family. We embrace our responsibility holistically and weave a mindset of sustainability into every corner of our business.

The ambition is to work for a better tomorrow, so you can feel good about your choices today.

CERTIFICATION & TESTING

We work with certifications and testing to ensure working conditions in our supply chain are safe and fair, and that our products are responsibly produced and of high quality.

Where relevant, products are tested before they become part of our collection. This includes lighting, furniture, outdoor pieces, kitchen and children's products. In order to adhere to REACH regulations, accredited testing agencies, such as the Danish Technological Institute, conduct tests on our products through processes defined by law.

We currently work with the following certifications:

GOTS – The Global Organic Textile Standard. Recognised as the world's leading processing standard for textiles made from organic fibres. It defines high-level environmental and social criteria along the entire organic textiles supply chain.

OCS – The Organic Content Standard. Verifies the presence and amount of organic material in a final product, tracking the flow of a raw material from its source to the final product.

FSC™ – The Forest Stewardship Council. An international, non-profit labelling scheme for wood and paper. In FSC™ forestry, no more wood is felled than the forest can naturally reproduce. At the same time, FSC™ is a guarantee that people who work within the entire supply chain are treated legally and ethically, and that animals and plant life are protected. Look for FSC™-certified products in the catalogue.

NORDIC SWAN ECOLABEL – A Nordic Swan Ecolabel candle is a candle meeting specific criteria for environmental performance as well as health aspects, quality and safety.

BSCI – Business Social Compliance Initiative. An industry driven initiative by AMFORI, which aims to monitor and assess workplace standards across global supply chains. An AMFORI BSCI audit helps us to ensure that all of our key suppliers treat their workers legally and ethically.

UN Global Compact – As a participant of the UN Global Compact, we commit to investing in sustainable and responsible practices. This year, we have published our first-ever Responsibility Report on their platform for 2021-2022, which is an annual report that details our progress on working with responsibility and a sustainable mindset. Our work focuses on UN Sustainable Development Goals 8, 12 and 17. Our Code of Conduct is based on UN Global Compacts Ten Guiding Principles. It Our Code of Conduct defines the ethical principles of our business and has been signed by all our partners and suppliers. The purpose of the principles set out in our Code of Conduct is to protect workers' health, ensure their safety during production and ensure an ethical and fair partnership for everybody. Our Code of Conduct is available on fermliving.com

RESPONSIBLE – Today we use RESPONSIBLE as a tag on our products to signify that a product is either FSC™, GOTS- or OCS/ Organic Blended-certified or produced in a recycled material, such as recycled glass, recycled aluminum, recycled paper pulp or PET-yarn made from post-consumer plastic bottles. In the future, our definition of RESPONSIBLE will expand due to committed work to our Responsible Criteria being implemented even more in the early design phase.

We continuously work towards having more responsible products in our collection. Read more about our work with responsibility fermliving.com/pages/sustainability
